

New England Fabricated Metals, Inc. Awarded ISO 9001:2015 Certification

Leominster, MA, February 27, 2020 - New England Fabricated Metals, Inc. (NEFM), a leading sheet metal fabrication and precision machining manufacturer, has this month been awarded an ISO 9001:2015 (quality management) certification by DEKRA. By meeting the extensive criteria of this standard, NEFM proves its commitment to consistently delivering quality outcomes for clients.

ISO 9001:2015 is the most widely recognized quality management system standard in the world. Certification distinguishes a company's ability to consistently provide products and services that exceed customer applicable statutory and regulatory requirements.

In the words of company President Mike Boyer "Since our inception in 1983, NEFM has held itself to the highest quality standards. We take pride in the way we value the needs of our clients and our relationships. In obtaining this certification we cement our quality standards, values, and our position as a leading manufacturer in the sheet metal and machine shop industry."

By achieving this standard, NEFM aims to enhance customer satisfaction through the effective application of quality protocols, including processes for continual review and improvement.

About New England Fabricated Metals, Inc.

New England Fabricated Metals, Inc., NEFM, is a premier sheet metal fabrication and precision machining manufacturer producing top-notch solutions for leading OEMs and contract manufacturers across industries. We are committed to upgrading and maintaining advanced engineering software and equipment, allowing us to take projects from conception through kitting with unyielding attention to quality and cost control.
